

Student Association at Binghamton University Intent to Charter Form

Thank you for your interest in founding an SA chartered organization! The process can take upwards of one semester and is largely self-motivated. Just as being a club leader requires a great amount of dedication and responsibility, being a club founder will require even more. Leading up to the chartering process, we expect students to use the resources they already have to begin their club, show it is sustainable, can enhance student life and bring students together in a creative way.

This form is the first step in the charter process, but there is no guarantee your group will be chartered just because you filled it out! We will not charter groups that are similar to existing groups, are too specific, are too broad, or are unsustainable. The SA has limited funds, staff, and infrastructure, so we are looking to charter groups that will have a strong presence in students' lives. Although we are your partners in this process, it is designed to be challenging. Make sure you return both this sheet as well as your responses. If both this sheet and the responses are not turned in together, your Intent to Charter will not be looked at!
